What is a tunnel shipping container?

Tunnel containers provide two access points, they have two sets of standard double-doors (one at each end of the container) making it easy to access both ends of the shipping container. Tunnel Shipping Containers are typically purchased by clients who want improved access to the contents of their container.

Are tunnel shipping containers available for resale?

Tunnel shipping containers are typically only available in new 'one trip' condition, owners typically create them for a specific purpose so they hold onto them. There aren't many tunnel containers available for resale in used condition.

Are collapsible containers good quality?

Our collapsible containers represent great value for money, while also retaining their reputation as the UK's best quality flat pack container. They are manufactured from steel, with ply board flooring in a steel frame, giving them longevity and resistance to damage, intruders and adverse weather conditions.
