Leading provider of large-scale photovoltaic power plants, custom folding solar containers, and complete energy storage systems across Southern Africa and international markets.

Containerized energy storage solutions now account for approximately 45% of all new commercial and industrial storage deployments worldwide. North America leads with 42% market share, driven by ...

The gel battery of this 120kw solar plant is designed with 180pcs 2v1200ah batteries with a total capacity of 432kWh. If your electrical equipment requires 100kwh of electricity at night, a 120kw solar kit can ...

The container is equipped with foldable high-efficiency solar panels, holding 168-336 panels that deliver 50-168 kWp of power. It is the perfect alternative to unstable grid power and ...

The gel battery of this 120kw solar plant is designed with 180pcs ...

Discover how industrial container solutions in Managua are reshaping storage and logistics. This guide explores market trends, practical applications, and cost-saving strategies for businesses needing ...

The military hospital in Managua is the most modern hospital in Nicaragua and serves both civil and military patients. As Nicaragua is heavily dependent on fossil fuel imports both for electricity and heat ...

Our solar powered clinics have been designed and engineered to be energy efficient, operating on less than 500 watts of electricity. From the air-conditioning system to the choice of lighting, our clinics ...

TIGI's innovative solar system provides sustainable hot water and cooling for Nicaragua's top hospital, cutting fuel and electricity costs

Designed for mobility and fast deployment, our foldable solar power containers combine solar modules,

120kW Managua Solar Containerized Unit for Hospital Use

storage, and inverters into a single transportable unit. Ideal for emergency scenarios,

This is the product of combining collapsible solar panels with a reinforced shipping container to provide a mobile solar power system for off-grid or remote locations.
