-----

The City of Dublin is in the process of installing solar panels and battery energy storage systems to create microgrids at four locations across the City, which will increase resiliency and energy savings.

Why We Need Community Microgrids  
The Value-Of-Resilience  
Transitioning Our Energy System  
Key Stakeholders For Community Microgrid Success  
It's time to modernize our energy system and move it into the present. What worked in the past is no longer viable. Our centralized power grid is so last century, as our friends at the World Business Academy explain in this excellent video: The future is here -- in the form of Community Microgrids.
