Will IFC support Egypt's first utility-scale battery energy storage system?

Cairo, Egypt, June 15, 2025 - IFC today announced an investment to support Egypt's first utility-scale battery energy storage system (BESS), deepening its partnership with AMEA Power, a leading renewable energy developer in Africa, the Middle East, and Central Asia, and the Government of Egypt to advance the country's clean energy ambitions.

What does Bess mean for Egypt?

The BESS integration marks Egypt's first project to be implemented under the Government of Egypt's fast-track 4GW Emergency Renewable Energy Program, which aims to meet growing electricity demand through clean and competitive sources and reduce reliance on imported natural gas.

When will Egypt's 'Bess' come online?

The BESS, currently under commissioning, is scheduled to come online by July 2025. It will deliver about 100,000 MWh and reduce nearly 20,000 tons of CO₂ emissions annually, helping Egypt meet its target to cut emissions from its power sector by 37 percent.

Cairo, Egypt - In a historic move for North Africa's energy sector, AMEA Power has successfully commissioned Egypt's first-ever utility-scale Battery Energy Storage System (BESS)--a ...

AMEA Power has signed an agreement with the Egyptian Electricity Transmission Company (EETC) to develop two standalone battery energy storage systems (BESS) with a total ...

AMEA Power has completed commissioning of the first large-scale battery energy storage system (BESS) in Egypt.

Dubai, United Arab Emirates, 15 July 2025 - AMEA Power, one of the fastest-growing renewable energy companies in the region, is pleased to announce the successful commissioning of ...

Egypt stands at the forefront of renewable energy expansion in the MENA region, with ambitious targets to increase the share of renewables in Egypt's energy mix to 42% by 2030 and ...

Egypt Energy Storage Power Station BESS

AMEA Power, a fast growing renewable energy company in the Middle East North Africa region, has announced the successful commissioning of Egypt's first-ever utility-scaled battery ...

IFC today announced an investment to support Egypt's first utility-scale battery energy storage system (BESS), deepening its partnership with AMEA Power, a leading renewable energy ...

AMEA Power has announced the successful commissioning of Egypt's first utility-scale Battery Energy Storage System (BESS). This 300MWh facility, fully powered by solar PV energy, ...

The company is investing \$800 million across Benban and Abydos projects. Earlier in January, Amea Power announced it had been awarded 300 MWh across two standalone utility-scale ...

The International Finance Corporation (IFC) announced on Sunday a landmark investment to support the development of Egypt's first utility-scale battery energy storage system ...
