What is reshoring solar manufacturing to Europe?

The Reshoring Solar Manufacturing to Europe report, commissioned by SolarPower Europe and conducted by Fraunhofer ISE, quantifies the cost gap and lays out the policy levers needed for reshoring solar module manufacturing in line with the EU Net-Zero Industry Act (NZIA) ambitions for 2030.

What is Solarpower Europe?

„We expect to add more in coming weeks and months”, Bethany Megan, spokeswoman of SolarPower Europe told pv Europe. Through ISMI, SolarPower Europe will act as a facilitator between the EU Global Gateway strategy, DFIs, and ECAs to secure public financing and access to global markets for European solar manufacturers.

Which companies are launching Solarpower Europe?

Following companies have signed the launch statement of the initiative so far: Ecoprogetti, Holosoli, K2, Mondragon, SMA, Staubli, Unex and Weidmuller. „We expect to add more in coming weeks and months”, Bethany Megan, spokeswoman of SolarPower Europe told pv Europe.

What is PV moduletech Europe 2025?

PV ModuleTech Europe 2025 is a two-day conference that tackles these challenges directly, with an agenda that addresses all aspects of module supplier selection; product availability, technology offerings, traceability of supply-chain, factory auditing, module testing and reliability, and company bankability.

5. Conclusion Exporting solar panels to Europe and the US in 2025 requires strategic planning, compliance with certifications, and efficient logistics. By prioritizing quality, staying ...

SolarPower Europe has launched a new initiative to boost offtake for European-made solar products in high-growth markets around the world, in support of the rebuilding of the EU solar ...

Reshoring Solar Manufacturing to Europe Download the report for a the detailed cost gap analysis between modules from the dominant source of supply, EU-made NZIA-compliant ...

Navigate the EU market for solar inverters. Understand export dynamics, 17% EU sales tax, and crucial sea shipping packaging requirements for successful market entry.

Exporting solar modules to the EU

SolarEdge has begun exporting US-made residential solar inverters to Europe, a rare move as few US solar manufacturers ship hardware abroad.

Discover the state of solar panel manufacturing in Europe, the challenges posed by imports, and what EU countries are doing to rebuild local production. Learn how European-made solar can boost ...

Unlock tariff-free access to the EU solar market. Learn how to manufacture solar modules in San Marino and navigate rules of origin for a key competitive edge.

The Solar Stewardship Initiative (SSI) has adopted a new set of binding targets and reporting requirements for its PV manufacturing members.

Summary: This guide explores the booming EU solar market, compliance requirements for photovoltaic module exports, and actionable strategies to establish sustainable partnerships. Discover how to ...

What are the optimal levels of strategic solar module stockpiles in the European Union (EU) for achieving climate neutrality by 2050, and how might su...
