Since its launch on October 23, the project has generated over 5,000 kilowatt-hours of electricity, fully demonstrating the exceptional power generation efficiency of Gaojing modules.

The village has a multi-sector industry company that is listed on the stock exchange, has bought airplanes and plans to buy ships. The villagers are shareholders and are paid one-fifth of the ...

The village has been helping other rural towns to achieve the kind of success it has. Every year, Huaxi spends over 100 million yuan to share their experience in industrial development with their peers ...

Huaxi Village is known as the "Number One Village Under The Sky". It was founded in 1961. According to the local authorities, all the villagers (but not the much more numerous migrant workers) have a wealth of at least EUR100,000. This is a substantial amount by Chinese standards. The village has a multi-sector industry company that is listed on the stock exchange, has bought airplanes and plans to buy ships. The villagers are shareholders and are paid one-fifth of the company's annual profits. In 201...
