How do I Register my Liebert NX Battery Cabinet?

Click on Product Registration and fill out the form. This manual contains important instructions that should be followed during installation of your Liebert NX Battery Cabinet and accessories. Read this manual thoroughly, paying special attention to the sections that apply to your installation, before working with the battery system.

Where do I install a line-up and match Battery Cabinet?

Line-up-and-match battery cabinets are installed adjacent to the UPS. The recommended installation location is on the right side of the UPS cabinet. See Figure 2 and Figure 3 for line-up-and-match configuration views. Contains two or three battery strings to be used with the 93E 30 kVA UPS.

How do you enter a battery cabinet?

Cables may enter the battery cabinet from the top or bottom. Cable entry is made possible by installing conduit to the removable plate fitted at the top or bottom. See 3.0 - Installation Drawings. Depending on the site layout, the battery cabinets can be cabled several ways. See Figures 2 through 4. !

How do you connect a battery cabinet to a ups?

Cables between batteries and the UPS should be run in matched pairs, positive-with- negative, within each conduit or cable run. For cabinets ordered as connected (battery cabinets will bolt to each other), the positive and negative busbars are connected between battery cabinets with the supplied busbar connector extensions. See
