In April 2023, it was announced that energy company Teralight would be building one of Israel's largest solar parks, the Ta'anach PV project, in the Jezreel Valley, northern Israel.

OverviewSolar power stationsHistory and developmentFeed-in tariffEducational and research facilitiesFinance and businessSee alsoExternal linksThe Negev Desert and the surrounding area, including the Arava Valley, are the sunniest parts of Israel, and little of this land is arable, which is why it has become the center of the Israeli solar industry. David Faiman thinks the energy needs of Israel's future could be met by building solar energy plants in the Negev. As director of Ben-Gurion National Solar Energy Center, he operates one of the largest solar dishes in t...

Starting a solar manufacturing plant in Israel? This guide compares local supply vs. import logistics to help you build a resilient, cost-effective supply chain.
