Hot 2.0 Technology. The N-type module with Hot 2.0 technology has better reliability and lower LID/LETID. The parameters are subject to the actual situation, and the final interpretation right ...

Jinko Solar 60HL4- (V) 475W-500W provides high energy output, ensuring optimal performance for residential and commercial projects. Its advanced cell technology converts sunlight into electricity ...

These panels feature a new cell technology that combines half-cut cells with tiling ribbon (TR) technology, allowing for improved energy yield and shading tolerance. The module design includes ...

We do our best to provide information such as the JKM460N-60HL4- (V) Tiger-Neo panel dimensions, datasheet, warranty information, wattage and more wherever possible.

Better light trapping and current collection to improve module power output and reliability. 3.0 technology offer better reliability and efficiency. Minimizes the chance of degradation caused by PID phenomena ...

With the Tiger Neo 60HL4- (V), Jinko Solar has launched a highly efficient and powerful all-black N-type solar panels for private and commercial photovoltaic systems.

The Jinko Tiger Neo 60HL4-V belongs to the latest generation of n-type solar modules and combines maximum efficiency with a durable design. With an output of up to 490 W and an efficiency of up to ...

Zhejiang Xuhui New Energy Technology Co., Ltd. (CiFi SUN) Solar Panel Series 60HL4- (V) 475-500 Watt Tiger Neo Jinko Solar Panel. Detailed profile including pictures, certification details and ...

Excellent Anti-PID performance guarantee via optimized mass-production process and materials control. High salt mist and ammonia resistance. The N-type module with Hot 2.0 technology has better ...

N-type modules with JinkoSolar's HOT 3.0 technology and efficiency. 2024 Jinko Solar Co., Ltd. All rights

Jinko 60h14 photovoltaic panel
