Kehua Hengsheng won the bid for photovoltaic energy storage

By the end of the year, Kehua secured the bid for the world"s largest grid-forming energy storage project--the 300MW/1200MWh grid-forming energy storage project in Northwest China.

Good news! We are thrilled to announce that Kehua has secured a $167 million energy storage project!

With installations exceeding 46GW in PV and 15.2GW/8.2GWh in energy storage globally, Kehua is a Tier 1 clean energy provider committed to promoting a zero-carbon future.

Linyang/Xuji/Kehua Win the Bid for Energy Storage Equipment Procurement of the Gansu Lanzhou Photovoltaic Project of China.

Among them, Kehua Hengsheng independently develops and produces key core equipment required for photovoltaic power generation, including: photovoltaic grid-connected/off-grid inverters (1-630K), ...

Kehua has received numerous industry accolades, including the Best EV Charging & Battery Swapping Equipment in China and the 2024 Core Module Brand in China"s EV Charging & Swapping Industry.

During the same period, Kehua Hengsheng successfully won the bid for another photovoltaic technology leader base energy storage project - the Changzhi photovoltaic power generation technology leader ...

Kehua Digital Energy, with 36 years of power electronics expertise, offers comprehensive solutions in photovoltaics, energy storage, and microgrids. With installations exceeding 46GW in PV and ...

Kehua just won the bid of 120MWh grid-side distributed energy storage project in Hunan.As a key grid-side energy storage project in Hunan, the system realizes the grid-side peak shaving, effectively ...
