-----

In January, the government hiked electricity prices, with households seeing an increase of about 500 percent in the bills. Yet Samir said the electric rickshaws are still more efficient and...

The agency highlights that 2024 marked a turning point for the industry, with electric vehicle (EV) sales rising 25% to 17 million units, pushing annual battery demand beyond 1 terawatt ...

What costs and savings should I consider before buying an electric vehicle in Sudan? When considering the purchase of an electric vehicle (EV) in Sudan, it's essential to weigh both the ...

In a statement to the Sudan News Agency (SUNA), Abdal-Maarouf said GIAD has resumed operations in 18 locations nationwide and is contributing to the reconstruction of institutions damaged during the ...

The cost of electric vehicles (EVs) in Sudan is influenced by a mix of import regulations, taxes, and shipping fees. While the market for EVs is growing, steep import duties and associated ...

He described the move as a strategic addition to the national economy, given its potential to reduce fuel consumption and lower maintenance costs.

In a statement to the Sudan News Agency (SUNA), Abdal-Maarouf said the GIAD Group has returned in force to 18 locations nationwide, contributing to the reconstruction of numerous institutions...

Fuel costs have more than doubled since the coup. On top of that, repeated fuel shortages have left drivers queueing up for hours outside filling stations to top up their tanks.

Abdal-Maarouf added that GIAD has implemented major contracts in River Nile, Sennar, and White Nile states, in addition to a dedicated contract to supply school desks for students in Khartoum State.

Sudan's electric vehicle market, though nascent, is witnessing notable trends that signal its potential growth.
