Whether you're developing lithium-ion cells for electric vehicles, deploying grid-scale energy storage systems, or advancing battery second-life and reuse applications, Intertek provides end-to-end ...

EMJ Battery Consulting offers expert consulting for batteries and energy storage systems, backed by over 30 years of experience. As a technical expert in lithium-ion batteries, we specialize in safety, ...

Our experts provide custom and performance-based life safety for unique and new applications and uses within energy, utility, manufacturing, shipping and storage sites, as well as support litigation ...

Maximize the potential of battery energy storage systems while mitigating safety risks, with services from UL Solutions. Risk management, training and testing for businesses working with lithium-ion and ...

As we continue to push the boundaries of what is possible in lithium ion battery testing, our focus remains on supporting our clients' success and driving innovation in the new energy industry.

Discover AES' pioneering battery energy storage. We enhance grid reliability, deliver clean energy, and drive global net zero goals.

Browse our battery test chambers to determine which environmental chamber for battery testing fits your needs. We can't wait to collaborate on your next innovative project.

Discover 10 new battery storage companies to watch in 2026 & find out how their solutions will impact your business!

Leveraging our deep history in failure analysis and unparalleled multidisciplinary expertise, Exponent's energy storage and battery technology consultants bring a unique focus to helping ensure ...

Lithium battery testing and energy storage business

CSA Group will evaluate or test your projects including cells, packs, appliances and tools, e-mobility devices, and energy storage systems at our state-of-the-art laboratories.
