Can you finance a solar energy system with a loan?

Depending on how expensive your monthly electric bill is, you can save over \$100,000 on your utility bills over the lifetime of your solar panels. Taking out a solar loan is one of the most common ways to finance a solar energy system, but you can also finance your solar energy system with other types of loans, such as a home equity loan or HELOC.

What is a solar loan?

A solar loan is a financing product specifically designed to help homeowners purchase and install solar panel systems. These loans typically range from \$5,000 to \$100,000, with repayment terms spanning 2 to 25 years depending on the lender and loan type.
