Handling device for photovoltaic panels. Dalmec vacuum suction system with manual inclination for gripping and handling photovoltaic panels.

UniMove offers a solar panel lifter for every step of your processing operations. You can easily grip the solar panels with suction cups that have been designed for specifically handling this type of material.

The Solar Panel Lifter system allows easy installation and manipulation of solar panel modules in field via attachment to a variety of mini-excavators. This system reduces worker fatigue and wind gust concerns, ...

Ozzies Module Handler is a specialized equipment designed to safely and efficiently lift, handle, and place solar panels.

The Solmetric Module Lift is designed to safely and quickly transport a PV module to a roof. The device uses your existing fiberglass Werner or Louisville extension ladder.

Our end-effectors provide precise manipulation designed specifically for the object you need to handle. Rotation and translation about all axes are available. Plus, every lift undergoes rigorous factory ...

Find your solar panel manipulator easily amongst the 6 products from the leading brands (DALMEC, ATIS, BPM, ...) on DirectIndustry, the industry specialist for your professional purchases.

This innovative tool enables you to lift solar modules to the roof with ease and precision, making installation faster, safer, and more efficient. With its compact design and simple operation, Module ...

The ECOWEIGHTLESS is a semi-automatic vacuum manipulator designed to enhance the handling and transportation of heavy glass and photovoltaic panels within production environments.

Photovoltaic panel suction and lifting mechanical arm

Already being shipped in the US and internationally, the Vacuworx Solar Panel Lifter (SPL) was designed and launched as a definitive solution for always having the right attachment to ...
