While you are browsing solar power companies, one of them may offer to install a solar panel or solar roof in your home for a small cost or even for free. It's an intentionally misleading...

No information about the cost to remove or transfer solar panels, which could lead you to believe you have future options that might not be available or affordable

It's likely a scam. While there are some government-funded solar programs for households that qualify, "going solar" isn't free. Honest businesses will tell you exactly how much it'll ...

Are solar panels a scam? Solar panels themselves are not a scam. When the sun shines on solar panels, they produce electricity that can be used to power appliances and devices in your home. ...

While you are browsing solar power companies, one of them may ...

While there are many good companies installing solar panels, some scammers try to trick homeowners out of money or personal information, BBB warns.

If your solar installation is not properly permitted, you may face fines, penalties, or even forced system removal. These legal battles can be time-consuming, costly, and highly stressful, making your solar ...

Scammers across the U.S. are going door-to-door, pitching "free" solar energy systems. Many homeowners never get any solar equipment installed; those who do often get shoddy work. ...

If your solar installation is not properly permitted, you may face fines, penalties, ...

I'm sure it is a company selling solar power solutions, but it is very misleading, making it sound like something affiliated with PG& E or the PUC when it is not and I could see many people...

Self-built solar power generation scam

Scams are unfortunately common in the solar industry. Learn more about some of the most likely scams you may face when trying to go solar.

In this type of scam, fraudsters lure homeowners by offering "free" solar panels, claiming that government programs or grants will cover the entire cost of installation. While incentives such as ...
