The purpose of this study is to explore the idea that Democrat and Republican environmental norms may impact the attributes and strategies partisans use when choosing whether ...

The poll, commissioned by American solar panel manufacturer First Solar, suggests that conservatives support using U.S.-made materials in American factories.

In total, 56% of U.S. adults surveyed are supportive of expanding nuclear power in America. Democrats are far more supportive of expanding renewable energy sources like solar and ...

It doesn't matter if you're a Republican or a Democrat--not when it comes to solar energy. Solar energy has long been stereotyped as part of the left-leaning agenda, but the truth is ...

It doesn't matter if you're a Republican or a Democrat--not when ...

Do you know why the United States has political parties, why certain colors and symbols are associated with these parties, and what the origins and meanings of some common political ...

Discover surprising insights into why Democrats and Republicans alike choose solar panels--and how money, not politics, drives the decision.

Drawing on three longitudinal surveys from Germany, United Kingdom, and Switzerland, this article analyses whether installation of these solar panels causes meaningful changes in ...

Wherever you fall politically, embracing solar energy is one of the best things you can do for your budget and the planet. There's a common misconception that solar energy is a political ...

A new solar survey revealed that Republicans and Democrats are equally enthusiastic about home solar installations.

Solar panels form the party emblem

Democrats are more likely to install solar panels than Republicans, but as residential solar power becomes more affordable, Republicans are increasingly adopting it, driven mainly by cost ...
