What is the EU solar manufacturing map?

The EU Solar Manufacturing map gives an overview of solar manufacturing companies active along the solar PV chain. On this map, you'll find manufacturers spanning from polysilicon to module as well as the aggregate production capacities for each segment.

How many solar plants are there in Europe?

The latest report on the supply chain for European PV module production provides the status of 121 solar manufacturing sites, including closures and capacity on hold. It maps plants that produce PV modules, cells, wafers, ingots, polysilicon, and metallurgical-grade silicon.

How many companies in Europe manufacture solar PV modules?

Today, at least 38 companies are active in Europe manufacturing the equipment and machinery that produces vital steps of the solar PV module supply chain, including cells, ingots, wafers, and polysilicon. EU Clean Industrial Deal: Opportunity for renewables and European manufacturing

Where are solar PV module equipment manufacturers based?

Current solar PV module equipment producers are based across nine European countries (DE, FR, IT, NL, CH, ES, HU, FI, NO). The majority - 75% of European solar equipment manufacturers - are active in machinery for the cell and module segments.

Current solar PV module equipment producers are based across nine European countries (DE, FR, IT, NL, CH, ES, HU, FI, NO). The majority - 75% of European solar equipment ...

The latest report on the supply chain for European PV module production provides the status of 121 solar manufacturing sites, including closures and capacity on hold. It maps plants that ...

The 2025 report from Sinovoltaics reveals a projected increase in solar module capacity from 21 GW to 70 GW by 2030. Meanwhile, the European Commission is launching the Clean ...

HoloSolis, the French manufacturer of European low carbon PV cells and modules, has secured over EUR220 million in public and private funding to build one of Europe's largest solar ...

Discover the state of solar panel manufacturing in Europe, the challenges posed by imports, and what EU countries are doing to rebuild local production. Learn how European-made solar can boost ...

The latest report on the supply chain for European PV module production, provided by Sinovoltaics, a Hong Kong-based quality assurance service firm, details the status of 121 solar manufacturing sites, ...

This 2026 guide highlights ten reliable European (or Europe-focused) solar panel manufacturers, including AESolar, SoliTek, Bauer Solar, and others, emphasizing sustainability, local ...

The EU Solar Manufacturing map gives an overview of solar manufacturing companies active along the solar PV chain. On this map, you'll find manufacturers spanning from polysilicon to module as well as ...

Sinovoltaics unveils the 2025 Europe Solar Supply Chain Map, revealing new manufacturers and widespread factory closures. Discover how transparency and verified production ...
