What is a solar panel pallet?

Built to move and store solar panels safely. PVpallet solar panel pallets are reusable, heavy-duty packaging solutions designed to protect solar modules across residential, commercial, and utility-scale projects. They help installers and warehouse teams safely store, move, and handle solar panels--from delivery and warehouse storage to installation.

What is pvpallet?

PVpallet designs reusable pallets, solar module packaging, and BOS bulk containers for residential, commercial, and utility-scale solar projects. Reduce waste, improve efficiency, and ship solar modules and balance of system components safely.

Does pvpallet test all solar panels?

PVpallet's standard is to target and test to the maximum weight limits as shown in the specifications. PVpallet does not warrant that all loads will perform the same as lab testing. What size solar panels do PVpallet's solar panel pallets fit?

What is a solar pallet & how does it work?

These pallets are purpose-built with added features like protective sidewalls, a steel-reinforced base, and an efficient load management system. It's truly a game-changing solution for handling solar panels that improves efficiency and safety while reducing costs associated with breakage and packaging waste.

Our comprehensive solutions cater to a range of needs within the industry, including Solar Module Shipping & Storage, Job Kitting, Warehouse Organization, R& Rs, Battery & Inverter Packaging, and ...

PVpallet designs reusable pallets, solar module packaging, and BOS bulk containers for utility-scale solar projects. Reduce waste, cut breakage, and improve jobsite efficiency.

Reusable Solar Panel Pallets Built to move and store solar panels safely. PVpallet solar panel pallets are reusable, heavy-duty packaging solutions designed to protect solar modules across residential, ...

Custom 1970x1010mm solar panel pallets designed for secure PV module transport. Specialized solar pallet with protective features, anti-slip surface, and optimal dimensions for photovoltaic industry needs.

Special pallet for photovoltaic panels

Solar Panel Pallets PVpallet's Solar Panel Pallet is a revolutionary reusable pallets designed to protect, transport, and store solar panels with unmatched efficiency. Engineered for durability and ...

Photovoltaic panel pallets are ideal for larger construction sites and projects: you purchase a complete set (e.g. 36-37 panels) to optimise the cost per watt and simplify logistics. Our selection offers high ...

1700×1700mm full perimeter modular splicing pallet with vented deck, 4+ steel bars, and 1T racking load. Designed for solar panel stacking and storage.

PVpallet's solar panel pallets, Series X and Series X.L, fit a range of panel sizes. These pallets are purpose-built with added features like protective sidewalls, a steel-reinforced base, and an efficient ...

Complete specifications for standard and custom solar panel pallets. View dimensions, load capacities, materials, and technical details for all pallet types.

Adjustable,collapsible,reusablepallets engineered for solar panels. PVpallet's solar panel pallets,Series X and Series X.L,fit a range of panel sizes. These pallets are purpose-built with added ...
