Specialized Solar Power Station

plant, is a large-scale grid-connected photovoltaic power system (PV system) designed for the supply of merchant power. They are different from most building-mounted and other decentralized solar power because they supply power at the utility level, rather than to a local user or users. Utility-scale solar is sometimes used to describe this ty...

The need for power producers to generate CO₂-neutral energy has inspired a number of innovative solutions - like concentrated solar power (CSP) plants. These highly specialized and efficient ...
