Supports SNMP and comes with its own MIB. Protects critical assets from heat, humidity, smoke, water leaks or intrusion.

Custom manufacturer of temperature and humidity controls for transportation, construction, medical, industrial, vending, traffic, rail, architectural and energy management industries.

InfraGuard offers a wide range of sensors for a complete environmental monitoring, including temperature, humidity, smoke, shock, water leakage and rack access.

Available models monitor temperature, humidity, airflow, differential air pressure, water/leaks, dust/particles, contact closures, dry contacts, proximity/motion, and vibration.

SmartSensors are available for temperature and humidity, differential air pressure, airflow, dust and particles, water and leaks, proximity and motion, vibration, and contact closure. SmartSensors are ...

Founded in 2004 and headquartered in Xiamen, Fujian Province, the company focuses on the R& D, production, and service of IoT wireless sensor solutions.

Combined temperature (-10°C to +80°C) and humidity probe for IT environment (1-Wire bus). Fits into a 19" or 10" cabinet (1U size). 2 RJ11 connectors for daisy chaining the sensors, RJ11 cable included.

Keep an eye on remote conditions in critical areas for environmental factors including temperature, humidity, airflow, door position, power and much more. Get alerts when user-defined thresholds are ...

Premium 19" rack-mounted temperature and humidity monitor. Ethernet, relay, and conversion to Humidex. Suitable for online monitoring.

Supplier of rack-mounted temperature and humidity control products

Vutlan monitoring units will provide early warnings and notify staff for temperature issues. This information can help the staff optimize the cooling system by safely raising the ambient temperatures.
