Why do companies bid for energy storage tenders?

Bidding for energy storage tenders is extremely lucrative for companies of all sizes. Tendering authorities and private companies release thousands of contracts worth millions for procurement of energy storage. Global Tenders stands out as the largest platform dedicated to tenders and government contracts.

Is the 25 GWh tender a turning point for LFP batteries?

The 25 GWh tender is widely seen as a turning point for the Chinese storage sector's shift from policy-driven growth to a more sustainable, market-oriented model. With system costs declining rapidly, LFP batteries are gaining traction across grid, generation, and end-user segments.

Will NDRC remove mandatory energy storage requirements for renewable projects?

The tender follows February's "Document No. 136" from the National Development and Reform Commission (NDRC), which removed mandatory energy storage requirements for renewable projects.

What is global tenders?

Boasting over 20 years of experience in the tender business, GlobalTenders offers the most extensive and reliable Tenders/RFPs/Contracts Database available. The platform aggregates contracts from both public and private sources, connecting with a vast network of over half a million buyers.
