Who is Thai Energy Storage Technology plc?

THAI ENERGY STORAGE TECHNOLOGY PLC. Formerly "Thai Storage Battery Company Limited" was found in 1986 and became a public company limited in 1994. It has become one member of Hitachi Chemical Group in September 2017 and changed the company name to "Hitachi Chemical Storage Battery (Thailand) Public Company Limited" by the time of 3rd January 2019.

Why is energy storage important in Thailand?

Energy storage systems, including batteries and pumped hydro storage, play a pivotal role in storing excess energy from renewable sources and releasing it when needed. Thailand has been investing in renewable energy projects, such as solar and wind farms, and energy storage is essential to manage intermittent power generation.

Does Thai energy storage technology public company limited have climate goals?

Thai Energy Storage Technology Public Company Limited has not publicly committed to specific 2030 or 2050 climate goals through the major frameworks we track. Companies often set interim 2030 targets and long-term 2050 net-zero goals to demonstrate measurable progress toward decarbonization.

Does Thailand need a battery energy storage system?

Thailand may lack the Battery Energy Storage Systems (BESS) necessary to navigate supply and demand challenges. The 2024 PDP draft included 10,000 MW of BESS, but this may see the country struggle to fulfil carbon neutrality and Net Zero commitments over the coming decades.
