

Tool Battery Floor Fan

Throughout the years we've introduced groundbreaking tools that not only meet professional demands but exceed expectations. We invite you to join us on this journey of ...

We have established a modern flexible production line that can simultaneously produce different products such as roof fans, axial flow fans, side wall fans, industrial centrifugal fans, etc.

Engineered for versatility, this portable, battery-powered pedestal fan runs on popular lithium-ion tool batteries from Milwaukee, DeWalt, or Makita (battery not included), delivering powerful airflow even ...

The Makita 18V LXT Lithium-Ion Cordless Fan (model DCF201Z) is a powerful and portable solution for painters, contractors, and more. The DCF201Z has two settings for optimal air velocity control. It can ...
