Can I get VAT relief for energy storage devices?

In this announcement, we capture the key factors that will allow you to get VAT Relief for energy storage devices and specifically batteries. The relief applies to the services of installing energy-saving materials in residential accommodation and charitable buildings.

Why has the UK extended tax relief on battery storage systems?

All of which, once more, helps contribute to a cleaner and more controllable grid. It's indeed a positive development that the government has extended tax relief on battery storage systems in the UK. The decision reflects a commitment to reducing carbon emissions and promoting sustainable energy solutions.

When will Chinese-origin lithium-ion non-EV batteries be taxed?

Tariffs on Chinese-origin lithium-ion non-EV batteries are scheduled to increase to 25% effective January 1, 2026. Otherwise, batteries of non-Chinese origin storage batteries have not been subject to multi-front targeted tariff or duty actions.

Will China impose tariffs on lithium-ion EV batteries?

An interesting issue will be the imposition of tariffs. There are existing tariffs pursuant to Section 301 of the Trade Act of 1974 on some Chinese-origin lithium-ion EV batteries and non-lithium-ion battery parts, which were increased to 25% in September 2024.

In this announcement, we capture the key factors that will allow you to get VAT Relief for energy storage devices and specifically batteries. The relief applies to the services of installing energy-saving ...

VAT on lithium battery energy storage equipment From 1st February 2024, battery storage systems installed in residential and commercial premises will be exempt from the standard 20% VAT rate and ...

The investigations target active anode materials of the type used in lithium-ion batteries for Battery Energy Storage Systems, electric vehicles, consumer electronics, medical equipment, and ...

HMRC - 0% VAT on Batteries - Quick Summary In this announcement, we capture the key factors that will allow you to get VAT Relief for energy storage devices and specifically batteries ...

VAT on lithium battery energy storage equipment

China cuts VAT rebates on battery exports In early 2026, China's Ministry of Finance and State Taxation Administration announced changes to the value-added tax (VAT) rebate policy that ...

The Ministry of Finance and the State Administration of Taxation issued an announcement on adjusting the export tax rebate policy for photovoltaic and other products, pointing out that photovoltaic, lithium ...

China's 13% VAT on lithium-ion batteries vs. 6% for sodium-ion alternatives isn't just numbers--it's shaping which tech dominates. Pro tip: Follow the tax incentives, and you'll spot the ...

On November 15, the Ministry of Finance and the State Administration of Taxation in China made an announcement that sent ripples through the energy storage and battery industries. ...

The battery category extends beyond lithium-ion batteries and battery packs to include other energy storage technologies, such as all-vanadium redox flow batteries.

In a crucial move to tackle the energy crisis, the government has unveiled plans to grant VAT relief on the installation of energy storage batteries including lithium, AGM, Lead Acid and ...
